- 100 Biscuit board spacers
  - 130 - 2 1/2-inch ACQ compatible trim head screws
  - 1 Star Drive
- Covers approx. 60 sq feet (5.57 sq m)\*

### Invisi-Fast™ Kits are available in four different size spacers:

1/8" 3/16" 1/4" NO Spacer

These assorted sizes conveniently allow you to meet each deck board manufacturer's spacing requirements.

For soft and hard woods, we recommend using No Spacer to allow for proper board movement.

300 sq ft = 27.87 sq m, 60 sq ft. = 5.57 sq m,  
50 sq ft = 4.64 sq m

\* Based on 16" on center joist  
\*\* Based on 12" on center joist

# INVISI-FAST

HIDDEN DECK FASTENER™

CLEARLY SIMPLE™

## Guaranteed To Last Longer Than Your Deck!

# INVISI-FAST™

HIDDEN DECK FASTENER™

## ANGLE™

## BISCUIT™

CLEAR POLYCARBONATE GROOVED BOARD FASTENER

Not actual size. 1/4" Spacer Shown.

Not actual size. 1/4" Spacer Shown.

Not actual size. NM style shown..

Made of DURABLE CLEAR, UV Resistant, Lexan™ equivalent material that can be painted.

Unique Overhang Tabs for hands free attachment.

Proper gapping with the built on spacer, creates confidence that the decking boards will not be compromised by improper spacing.

The Invisi-Fast Angle™ was designed specifically for Angled Decking.

The attached spacer is round, making it work with any angle, keeping the deck boards gapped accurately.

Most cost effective groove board fastener.

Unbelievable holding power.

Clear polycarbonate makes this hidden deck fastener practically invisible.

Available in four different styles: Invisi-Fast™ NM, TD, TT and TX.

## Invisi-Fast Advantages

- ▶ Under deck design helps prevent premature wood decay around fastener while creating a clean look from above.
- ▶ Will not corrode like galvanized deck fasteners and is stronger than any polypropylene fastener.
- ▶ Screws into the side of the joists preventing premature wood deterioration.
- ▶ Invisi-Fast™ fasteners cost less per square foot than most other hidden deck fastening systems.
- ▶ The Invisi-Fast™ hidden deck fastener allows for individual board replacement should a deck board ever get damaged.
- ▶ Perfect for Stair Construction.

No special tools needed to install.

Compatible with Composite, Hardwoods and all types of treated decking.

Exceptional Holding Power - Professionally Tested to hold uplifts up to **1820 lbs.**

Substantially stronger than any of our competitors.

Deck board is supported by joist, not fastener.

The only CLEAR deck fastener.

## PLUS™ Optional Fastening Accessory

- ▶ Innovative above deck fastening design.
- ▶ Designed for low-to-the-ground and high level decks.
- ▶ Installation is easy. Just "Screw and Flip".
- ▶ Easy to install for the average homeowner.
- ▶ Must be used with Invisi-Fast Angle™ or Standard Kits.

- ▶ Invisi-Fast™ NM works with several pre-grooved boards including Monarch, Fiberon, Veranda, Latitudes, Gossen, Moisture Shield and others. Invisi-Fast NM also works on boards with machined in grooves that are cut using a standard biscuit jointer or router. Provides 3/16" board spacing.
- ▶ Invisi-Fast™ TD was specifically designed to work with the Tigerdeck brand grooved boards. Provides 3/16" board spacing.
- ▶ Invisi-Fast™ TT was designed to perfectly compliment the Timber-Tech grooved boards. Provides 3/16" board spacing.
- ▶ Invisi-Fast™ TX was custom designed to work with the Trex and Elk Crossttimbers grooved boards. Provides 1/4" board spacing.
