### Invisi-Fast™ Original and Angle Kits are available in 4 different size spacers:

1/8" 3/16" 1/4" NO Spacer

These assorted sizes conveniently allow you to meet each deck board manufacturer's spacing requirements.

For soft and hard woods, we recommend using No Spacer to allow for proper board movement.

300 sq ft = 27.87 sq m, 60 sq ft. = 5.57 sq m,  
50 sq ft = 4.64 sq m

\* Based on 16" on center joist

\*\* Based on 12" on center joist

# INVISI-FAST

HIDDEN DECK FASTENER™

CLEARLY SIMPLE™

## Guaranteed To Last Longer Than Your Deck!

# INVISI-FAST™

HIDDEN DECK FASTENER™

## ANGLE™

## BISCUIT™

CLEAR POLYCARBONATE GROOVED BOARD FASTENER

Not actual size. 1/4" Spacer Shown.

Not actual size. 1/4" Spacer Shown.

Not actual size. TXB style shown..

Made of DURABLE CLEAR, UV Resistant, Lexan™ equivalent material that can be painted.

Unique Overhang Tabs for hands free attachment.

Proper gapping with the built on spacer, creates confidence that the decking boards will not be compromised by improper spacing.

The Invisi-Fast Angle™ was designed specifically for Angled Decking.

The attached spacer is round, making it work with any angle, keeping the deck boards gapped accurately.

Most cost effective groove board fastener.

Unbelievable holding power.

Available in many different styles:

- ▶ Invisi-Fast™ NM-CLEAR works with several pre-grooved boards including Monarch, Fiberon, Veranda, Latitudes, Gossen, Moisture Shield and others. Invisi-Fast NM also works on boards with machined in grooves that are cut using a standard biscuit jointer or router. Provides 3/16" board spacing.
- ▶ Invisi-Fast™ TD-CLEAR was specifically designed to work with the Tigerdeck brand grooved boards. Provides 3/16" board spacing.
- ▶ Invisi-Fast™ TT-CLEAR was designed to perfectly compliment the Timber-Tech grooved boards. Provides 3/16" board spacing.
- ▶ Invisi-Fast™ TXB-BLACK fastener is compatible with Trex's Transcends, Brasilia, Accents and Contours pre-grooved deck board.
- ▶ Invisi-Fast™ TQ-CLEAR was designed to be used on 3/4" deck boards. You can choose deck board spacing of either 1/8" or 3/16". Groove dimension is 1/8" cut 1/2" deep.

## Invisi-Fast Advantages

- ▶ Under deck design helps prevent premature wood decay around fastener while creating a clean look from above.
- ▶ Will not corrode like galvanized deck fasteners and is stronger than any polypropylene fastener.
- ▶ Screws into the side of the joists preventing premature wood deterioration.
- ▶ Invisi-Fast™ fasteners cost less per square foot than most other hidden deck fastening systems.
- ▶ The Invisi-Fast™ hidden deck fastener allows for individual board replacement should a deck board ever get damaged.
- ▶ Perfect for Stair Construction.

No special tools needed to install.

Compatible with Composite, Hardwoods and all types of treated decking.

Exceptional Holding Power - Professionally Tested to hold uplifts up to **1820 lbs.**

Substantially stronger than any of our competitors.

Deck board is supported by joist, not fastener.

The only CLEAR deck fastener.

## PLUS™ Optional Fastening Accessory

- ▶ Innovative above deck fastening design.
- ▶ Designed for low-to-the-ground and high level decks.
- ▶ Installation is easy. Just "Screw and Flip".
- ▶ Easy to install for the average homeowner.
- ▶ Must be used with Invisi-Fast Angle™ or Standard Kits.
